

*Educational Therapy Family and Marital Counseling Women's Life Coaching*

Dear Client,

Welcome to Insights, Inc. Our first priority is to provide you and your family with insightful and compassionate counseling services. We are deeply committed to creating a therapeutic experience that will be nurturing, healing and centered around your specific needs.

For over thirty years I have been a therapist and an educator in both Illinois and Wisconsin. By specializing in three specific areas, I provide my clients with a unique level of expertise in:

*Family and Marital Counseling: guiding individuals and couples to increase self awareness, develop strategic relationship skills and create mutual compassion*

*Educational Therapy: creating a deeper understanding of the child's learning and behavioral difficulties, while working as a liaison between the family and the school, helping to advocate for the specific needs of the student*

*Women's Life Coaching: guiding women to discover their power, their brilliance and their possibilities*

Insights, Inc is a fee for service practice. Payment is due at the time of service by check, cash or credit card. After your first session, you will receive an email from "Therapy Partner Corporation", asking you to confirm (authenticate) your correct email address. After your email authentication, you will begin to receive monthly emailed statements. If you choose to seek reimbursement from your private healthcare plan, that statement will provide an accurate record of your therapy visits, including the appropriate diagnostic and CPT codes. It is recommended that you contact your insurance provider and verify their policy for out of network reimbursement.

The therapist/client relationship is based on trust and confidentiality. These policies enable you to receive the professional therapy services you need, when you need them. I make every effort to provide quick access to appointments and return phone calls within twenty four hours. I look forward to developing and maintaining a professional relationship with you.

Sincerely,

*Carol Sherman Haid, MA, LCPC, BCPC  
Licensed Clinical Professional Counselor  
Board Certified Professional Counselor*
